## Summary

Enthusiastic and detail-oriented Web Developer with a solid foundation in front-end and back-end technologies, passionate about creating seamless and engaging digital experiences. Skilled in HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, and React.js, with hands-on experience developing responsive, high-performance web applications. Adept at problem-solving, debugging, and collaborating within cross-functional teams to deliver clean, efficient, and scalable code. Highly motivated to learn emerging frameworks and contribute to innovative projects that enhance user satisfaction and business growth..

## Work Experience

**Web Developer** Aug 2025 – Present  
Bitmax Technology, Noida, UP

- Developed and maintained responsive websites and single-page applications using React.js and modern JavaScript practices.
- Integrated REST APIs and managed state using Redux/React Query for efficient data handling.
- Collaborated with design teams to convert Figma/UI mockups into functional web pages.
- Ensured high performance, accessibility, and cross-browser compatibility across devices.
- Conducted code reviews and optimized code for maintainability and scalability.
- Wrote reusable, clean, and modular components for better maintainability.

**Web Developer Intern** Aug 2025 – Aug 2025  
BM Digital Utilization, Noida, UP

- Led the development and management of SeekForms, a job-finding platform connecting users with employment opportunities.
- Enhanced functionality, optimized user experience, and streamlined the job application process.
- Collaborated with cross-functional teams to improve site performance and ensure smooth deployment.

## Project

**E-Commerce Website** | Node.js, React, Express, MongoDB

- Developed a full-stack e-commerce platform with user authentication, product management, and payment integration.

**Car Rental Website** | PHP, MySQL, HTML, CSS, JS | [www.solo.drive.com](http://www.solo.drive.com)

- Built a responsive car rental site with dynamic booking, user management, and backend business logic.

**Portfolio Website** | Node.js, React, Express, MongoDB

- Created a personal portfolio showcasing projects with interactive and responsive design.

**Library Management System** | Core Java (OOPs)

- Designed a library management app applying object-oriented programming concepts.
